ABOLITION OF THE PANAMA CANAL

This Would Be Preferable to Permitting Our National Honor to be Questioned, Declares Committee on Interstate and Foreign Commerce—Bitter Fight Over Repeal of Free Tolls Provision Indicated—General Debate Tomorrow.

Washington, March 24.—Congress is on the verge of the most vigorous legislative struggle that has enlivened its proceedings in many years—the contest over the administration proposal to repeal the provision of the Panama canal act granting toll exemption to American coastwise ships.

Plans for taking up the Sims repeal bill were completed in the house today and democratic leaders aligned on both sides of the issue have marshalled their forces and prepared their arguments. It was generally conceded that the bill would be called up for general debate by Thursday, and that it might be reported some time tomorrow when Representative Henry, chairman of the rules committee, proposes to submit a rule to limit general debate on the measure to fifteen hours. A vote on this rule when reported will, in a measure, test the strength of the opposing forces.

"Free Tolls" Was An Amendment.
Preliminary to the debate, which is certain to be most spirited, special attention was given tonight by senators

BRIEF STATE NEWS

Plainville—Miss Charlotte Scott has just celebrated her 87th birthday at her home in Canal street.

Bristol—The Pierson Engineering and Construction company has filed a certificate of increase of capital stock with the secretary of state from \$50,000 to \$150,000.

Middletown—There will be about 125 in the graduating class of the Middletown High school in June. This will be the largest class in the history of the school.

Winsted—Bids have been received for the new church to be erected at the corner of Main and Oak streets, for St. Joseph's R. C. church and it is expected that the contract will be awarded this week.

Waterbury—Deputy Factory Inspector D. P. Sullivan recently finished a week's work in Waterbury. He inspected many of the factories and all of the local bakeries and found them all to be in first class condition.

New Haven—There is invested in New Haven \$1,494,210 in automobiles. This information is contained in the list of taxable personal property which is given in a statement of the city's financial condition issued by Controller Arthur D. Mullen.

New Britain—The mercantile division of the Chamber of Commerce membership committee held a meeting the other afternoon at the rooms of the New Britain Business Men's association and made plans for their part in the membership campaign, which has recently been started.

Meriden—That all public dances should be licensed and that five women censors should be appointed to attend such public dances and pass upon the morals of the participants is the belief of Mayor Donovan, who seeks to have a by-law covering all these provisions passed by the council.

HAIR FELL OUT WITH RINGWORM

Borned and Itched So Scratched Until Blood Came. Cried Himself to Sleep. Cuticura Soap and Ointment Cured in Three Weeks.

161 Harrison St., Pawtucket, R. I.—"When I first noticed the ringworm on my little girl it was just a tiny little spot below the eye. It moved so that it got around the temple, finally it moved into her hair and the hair fell out on the spot where the ringworm was. By this time it was larger than half a dollar. It burned and itched so she would scratch until the blood came and she would cry herself to sleep. In the morning the pillow would be covered with blood and humor where she would have scratched in her sleep. During the day she was miserable."

"I used ——— and ——— as well but they did her no good for the ringworm was getting bigger and bigger. I had given up hopes. At the end of five months I read about the Cuticura Soap and Ointment so I sent for them right away. I then bought some more and used them according to directions and in less than three weeks she was quite cured. In four weeks the hair was growing thickly over it so that you would never know she had a sore." (Signed) Mrs. Corbett, Nov. 30, 1912.

A single cake of Cuticura Soap (25c) and box of Cuticura Ointment (50c) are often sufficient when all else has failed. Sold throughout the world. Sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

That sudden breeze, predicts a freeze. Be prepared—

Get a Gas Heater

You all know it's dangerous to eat breakfast in a cold room, and I assure it's not very comfortable. Whereas, with one of our Heaters installed, you only have to light it, a few minutes before breakfast is called in order have the dining room comfortably warm.

We carry these Heaters in three different styles:

Resnor Reflector Heater in two sizes and The Oriole, something new in Gas Heaters.

Call and see them at our office and let us explain their usefulness.

Gas & Electrical Department
Alice Bldg., 321 Main St.

and representatives to the majority report on the Sims repeal bill submitted by Representative Adamson of Georgia, chairman of the committee on interstate and foreign commerce. This report, which appeared in printed form today, points particularly to the fact that in reporting the Panama canal act during the last congress, the committee had recommended uniform tolls and that the exemption for American coastwise shipping was accomplished by amendment. The committee had recognized, the report said, long before any foreign government had voiced an opinion of complaint that treaty stipulations required uniform tolls.

Treaty Does Not Permit Such Discrimination.

"We are not disturbed," it added, "by the taunt made for a purpose, that repeal would be truckling and yielding to foreign demands. A similar taunt could be hurled against any man or nation honorable enough to comply with contracts or generous enough to promote friendly relations by according respectful consideration to views of the opposite party. From high sources in this and other countries and from men yet alive who participated in the formation of the various treaties, men whose veracity and integrity cannot be questioned, come unequivocal statements that the language of the treaty controlling the imposition of tolls was not intended to permit such discrimination."

"Even if it were a close question with the balance tending in our favor we could not afford, in a matter of national honor, to contend or even debate, especially a proposition which involves policy not in the interest of our entire people, but in the interest of a small special class in whose favor the exemption operates against the general interest of the entire people."

Better to Abolish Canal.

"Far better to abolish the canal itself than even to permit our national honor to remain in question."

Considerable speculation exists as to the strength of the opposition to the repeal in both houses of congress, conservative proponents of the proposed reversal of policy, while claiming an assured majority in both houses, admitting that the opposition is formidable.

An unusual situation confronts the democratic party in the house, where the president has arrayed against him the majority leader, Mr. Underwood, Representative Fitzgerald, chairman of the appropriations committee, Representative Kitchen of North Carolina, ranking member of the ways and means committee, and according to undenied reports, the speaker of the house. Whether Speaker Clark will yield the gavel to take part in the debate is a matter causing the repeal champions considerable concern. The speaker has given no indication of his intentions in this regard.

Senator Chamberlain's Resolution.

One of the guns of opposition to the repeal in the senate was fired today by Senator Chamberlain of Oregon, through the introduction of a resolution calling upon the secretary of war for all available information as to the cost of maintenance of navigable rivers and canals through which all shipping by an act passed in 1884 was guaranteed passage free of tolls.

In a preamble to the resolution it was asserted that if the policy of the government with relation to the Panama canal should be reversed, the policy with reference to all rivers and canals should be changed and tolls charged all shipping to pay the government for maintaining the waterways.

Subsidies Granted Elsewhere.

"My chief purpose in introducing this resolution," said Senator Chamberlain tonight, "is to show if, as repeal champions maintain, the tolls exemption to American ships is a ship subsidy granted by the government that it has always been the policy of the government since 1884 to subsidize our shipping. If we are going to charge our shipping tolls at Panama we ought to charge tolls elsewhere."

There will be discussion of the resolution in the senate tomorrow. Senator Chamberlain planning to call it up. Senator O'Gorman today had read to the senate a series of telegrams from various parts of the country congratulating him on his stand against toll exemption repeal.

BULLETIN'S PATTERN SERVICE

A DESIRABLE MODEL.
Ladies' All Over Apron.

Percale, gingham, chambray and similar fabrics may be used for this practical design, which serves as a complete cover and protector for the gown or dress underneath. It is cut with low neck and cap sleeve to insure coolness and comfort. The pattern is cut in three sizes: Small, medium and large. It requires 8½ yards of 36-inch material for the medium size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

Order through The Bulletin Company, Pattern Dept., Norwich, Conn.

The legislators at Frankfort who favor "constitutional prohibition" are evidently unacquainted with its history.—Louisville Courier-Journal.

"Staying" Quality

WHEN you buy a horse the important thing is—what will he do, and can he keep it up; not merely what is his price. A horse always looks like a horse, but what is in him cannot always be seen.

This also applies when selecting a fertilizer; they all look alike—but looks don't tell whether they are able to start a crop and keep it growing. Those that won't do it you do not want at any price.

A good fertilizer, like a good horse, has "staying qualities" and these qualities are possible only when the plant feeding elements are rightly balanced, with the right proportion made soluble and ready for rapid assimilation by the plant when it most needs them. When it wants to grow fast it must feed fast, and having made a good growth, must be fed to maturity. A good fertilizer will not forsake the crop half-way through its growing period.

BOWKER'S FERTILIZERS

are built on a quality basis; they are made to feed fast and also to hold out; they are made to bring the bushel cost low and the quality high.

In our recent Potato Contests, fifty-three crops in fifty-three different parts of New England, raised by fifty-three different farmers averaged 326.2 bushels per acre. Weather and cultivation differed in each instance; the only condition that was alike in every case was the use of Bowker's Fertilizers. Can you beat such a record? Not with any other fertilizer.

Apply your horse-buying principles, and good "horse sense" in buying your fertilizers. All your life you have known Bowker's Fertilizers and their reputation—this year give your crops a chance to show what they can do in quantity and quality on Bowker's. Your profit can come only from your yield—therefore, you must have able help in the soil. This, Bowker's will give you—and through its use you get quick action and profitable yields.

Only a quality fertilizer can produce a quality crop.

Our Local agents will supply any quantity you desire. If, however, none are in your section write us for further information. Also, ask for our book "Plant Food." No advertising in it. It is helpful and is sent free.

43 CHATHAM ST., BOSTON.

HALF OF NEW YORK'S COWS TUBERCULOUS.

Milk Committee Makes Startling Assertion to Governor Glynn.

New York, March 24.—Half a million dairy cows, one-half the number in New York state, are tuberculous, and physical examination can detect not more than 5 per cent. of the infected animals. This assertion heads a statement sent to Governor Glynn and

the presiding officers of the state legislature today by the New York milk committee, an organization founded by the association for improving the condition of the poor. The committee's purpose is to persuade the legislature to postpone action on the Webb-Wheeler bill, which seeks to cope with the pure milk problem by providing for compulsory examination of all dairy cows and the slaughter of those found to have tuberculosis.

Must Be Made to Understand.
General Carranza's maneuvering only

adds to Secretary Bryan's perplexities. The Secretary must continue to find some way to make Carranza understand that the United States will do its utmost to protect the foreigners in Mexico whether the Carranza government is officially recognized or not.—Springfield Republican.

Children Cry FOR FLETCHER'S CASTORIA

Crisco foods taste as good as they look and what is most important, they are digestible.

Crisco cookies, doughnuts, gingerbread, etc., are good for children, because Crisco is a pure and absolutely all vegetable cooking fat. It is the cream of food oils, made possible by the discovery of the scientific "Crisco Process."

Crisco makes fried foods more delicious and wholesome. It makes digestible pie crust. Crisco cake is as rich as the most expensive butter cake.

Try Crisco in your favorite recipe. For shortening, use a little less than you would of butter or lard and in cake making, cream it thoroughly. Use plenty for deep frying, for the same Crisco can be used over and over.

New Cook Book Free

This new book by Marion Harris Neil, Cookery Editor, Ladies' Home Journal, gives 250 original recipes, is attractively illustrated, and tells many interesting and valuable facts about cooking and food products. It also tells the interesting story of Crisco's discovery and manufacture. It is free. There is also a quality edition of this book (regular price 25c) containing a total of 615 Neil Recipes and a Calendar of Dinners—365 menus of original and tasty meals. This book is bound in blue and gold cloth and is sent for five 2-cent stamps to those answering this advertisement. In writing for either, address Department 100, The Procter & Gamble Co., Cincinnati, Ohio.

Additional Crisco Facts

Crisco takes proper frying temperature without smoking up the kitchen. You can fry fish, then onions, then potatoes in the same Crisco, merely by straining out the food particles after each frying.

Crisco in place of butter in cookies, cakes, scalloped dishes, etc., gives proper richness at much less expense. Salt should be added when used in place of butter.
